Never carry keys again!

Introducing the Lockwood 001Touch™

For more than seven decades Lockwood has been securing homes in Australia. Today Lockwood is proud to launch the future of keyless locking. The 001Touch™ combines a stylish digital touch screen keypad with the security of the iconic Lockwood 001 Deadlatch. The simple convenience of using a pin code means you never have to carry keys again!

Key Features

Touch screen keypad

The touch screen keypad has no mechanical buttons which means no trace of the secret pin code.

Pin code or Key card

Choose the convenience of a pin code or key card. Up to 20 key cards can be programmed.

Cryptic code function

The cryptic code function prevents onlookers from identifying your pin code during access.

Secure Mode

Secure mode gives the option to lock the 001Touch™ internally with a key. This secures the door on both sides with the ability to unlock the door with a pin code or key card externally. This SafetyRelease™ function minimises the risk of being locked out.

User code that expires

A temporary code can be programmed to last from three hours to two weeks. This is ideal when a tradesman needs access for a few hours or when a neighbour is house sitting.

Visual guide for programming

For added convenience, an illuminated guide will assist in the programming of key features (refer to installation guide).

Low power consumption

Four standard AA batteries will unlock a door up to 10,000 times. A warning light will appear when the battery level reaches less than 30%.

Battery check function

The battery level can be checked without removing the batteries. A simple sequence reveals the battery level between 30% - 100%.

Smart Memory

The settings, codes and key cards will remain programmed in the lock in the event the batteries are depleted.

Emergency battery connection

In the event the battery goes flat, two battery contact points will fit a standard 9V battery. A temporary charge will allow entry with the pin or key card.

001Touch™ Information

Key Case	High purity zinc alloy
Battery Cover	High Quality ABS plastic
Backset	60mm
Latch	Stainless steel 18mm projection
Door Thickness	32mm to 50mm
Cylinder	Only internal cylinder is present. External cylinder is replaced with a keypad and there is no key override
